

**International Federation for Heat Treatment & Surface
Engineering (IFHTSE)
&
Egyptian Heat Treatment Society (EHTS)**

It is our pleasure to invite you to become a sponsor or an exhibitor at the

The conference will be the first regional event to be held in Egypt in cooperation with IFHTSE which coincides with the 3rd Heat Treatment Conference of the EHTS. The joint Collaboration between Egyptian Heat Treatment Society and the International Federation for Heat Treatment and Surface Engineering will deliver a dynamic scientific / educational conference and powerful networking opportunity for the research workers and industrialists of the region whilst maximizing the joint interests of all conference participants and exhibitors.

This conference will be of specific interest to companies, and individuals engaged in the heat treatment and surface engineering of steel and non-ferrous metals serving the different fields of industry such as: Metallurgical; Engineering; Military; Petroleum; Chemical; Automotive; Aerospace; Medical tools and Power Generation.

In addition, the conference aims to attract individuals in the above-mentioned industries and companies;

- who are responsible for decision making;
- who are working in R & D areas of their organizations;
- who need to follow the technological advances in the field of heat treatment and surface engineering that will affect their industry sectors and their competitiveness in the global economy;
- who make purchasing decisions about the kinds of equipment and services their organizations and companies need or will need.

The exhibition accompanying the conference will be a great opportunity for vendors of equipment and service providers in the field of heat treatment and surface engineering and related fields to present their products and services to the large gathering of industrialists and researchers of the Mediterranean and other countries.

EHTS

The Egyptian heat treatment society (EHTS) was established on September 2003 in Cairo as a scientific, nonprofit society to promote interaction and cooperation between researchers and heat treaters, organize the research efforts in this field, directing the research plans towards serving the Egyptian industry and solving its problems. **EHTS** joined the **International Federation for Heat Treatment and Surface Engineering (IFHTSE)** and became a member of this federation in 2004. **EHTS** is considered to be the first society to join the **IFHTSE** from Arab, African and Middle East countries.

IFHTSE

The International Federation for Heat Treatment and Surface Engineering (IFHTSE) is a not-for-profit body incorporated in Switzerland in 1972. Its members are scientific and technological societies and associations (and certain other equivalent bodies having not-for-profit status) around the world with main or significant interest in heat treatment and surface engineering. IFHTSE has Consultancy Status with UNIDO (United Nations Industrial Development Organization).
